---

In a near future when androids are the new working class, one Andromeda unit will be the breakthrough for human-level artificial intelligence. Through the love and care of a child, this Andromeda is given the gift of a heart and the promise that one day she will become real. But her transformation to a higher consciousness is dangerous to others, and there are those who will do anything to have her destroyed. In a near future when androids are the new working class, one 'Andromeda' will be the breakthrough for human-level artificial intelligence. Through the love and care of a child, this android is given the gift of a heart and the promise that one day she will become real. But her transformation is dangerous, and there are those who will do anything to have her destroyed. a5c7b9f00b
